PRODUCT DESCRIPTION

DESCRIPTION

Upgrade your off-road lighting setup with the Baja Designs Squadron/S2/S1 On/Off 2-Light Max (150 Watts) Wiring Harness – Universal. Designed for maximum power and versatility, this high-quality 12V wiring harness ensures a reliable connection for your Squadron/S2/S1 LED lights, delivering seamless performance in any terrain.

Key Features:

- Supports Up to 150 Watts/12.5A – Handles high-output lighting configurations
- Seamless Compatibility: Engineered for use with Baja Designs' Squadron, S2 and S1 product lines, ensuring a perfect fit and reliable performance.

Universal Application: Ideal for various off-road vehicles, including trucks, Jeeps, UTVs, and more, offering a versatile solution for your lighting needs.

- Heavy-Duty Construction – Built with durable, high-quality materials to withstand harsh off-road conditions.
- Simple On/Off Functionality – Easily control your Baja Designs lights with a straightforward on/off toggle switch.
- Weather-Resistant Connectors – Sealed for protection against dirt, moisture, and extreme weather.

Specifications:

- Engineered for Squadron/S2/S1 Lights
- Powers 2 Lights Max / 150 Watts/12.5A Total
- On/Off Toggle Switch
