

### LP9 SPORT, LED

**\$797.41 - \$814.61 GST included**

**SKU: N/A**

**Categories:** [LED Auxiliary Lights](#), [LP9](#)

### PRODUCT DESCRIPTION

The LP9 Sport is perfect for enthusiasts that want a full size light with modern styling and advanced features. The Sport model still includes all of the technology that makes the LP9 series so popular, from Direct Ducted Cooling - that keeps your light cool under stress - to the Integrated Peripheral Technology (IPT), which produces an incredible 200° spread of usable light.

The LP9 Sport utilizes 9 forward projecting LEDs to produce 6,500 Lumens at 61 watts, and 6 LEDs for Integrated Peripheral Technology (IPT) which produce 2,280 lumens at 21 watts.

As with all of our LED offerings, this light features uService technology - allowing customers to change the lens pattern and color depending on driving conditions, or simply when they want to refresh the lens.

Note: The LP9 Sport is simple on/off (no hi/lo) and does not include the amber backlit feature. These features are available on the LP9 Pro and Racer Editions.

### VARIATIONS

| Image  | SKU    | Price                    | Description   | Pattern       | Colour |
