

ONX6 SINGLE ROCK GUARD 10" - UNIVERSAL

\$36.58 GST included

SKU: 450000-1

Categories: [Accessories](#), [OnX6 LED Light Bar](#)

PRODUCT DESCRIPTION

The OnX6 Rock Guards are designed for day or nighttime use. We have three color options to suit all your needs. Whether you need a black light cover to comply with local laws, want to use the amber guard to quickly switch between white and amber light, or the clear rock guard for additional protection from sand blasting and rogue rocks.

These guards simply click on and off, so you can install and replace easily. Additionally, you can use CLEAR during summer months and Amber during foggy months.

Each Rock Guard is 10" long. This means for a

- 10" bar you require 1 guard
- 20" bar will require 2 guards
- 30" bar will require 3 guards
- and so on.
